

# BRIGHT IDEAS

## KLI Proudly Introduces Sternberg Lighting

KLI proudly introduces STERNBERG LIGHTING to our growing list of Manufacturers and we are very thankful to STERNBERG for allowing KLI to represent them in Hawaii.

STERNBERG LIGHTING has been a manufacturer of exterior lighting luminaries, poles with coordinating bollards, landscape furnishings and site amenities in a variety of designs since 1923.

When a new community is being designed, or an existing one is being updated, consider all the detail furnishings with STERNBERG products. From the traffic signs and street signs to benches, trash receptacles and mail boxes, all can be supplied from one source. The site amenities are available in different designs, sizes and colors to coordinate with your specifications.

If your design calls for a custom or unusual installation, STERNBERG can help. Whether it is special tooling to match historic street lighting, building an arch over your main street with our lighting poles or utilizing our proprietary Drip Irrigation System, Sternberg has the expertise to do it all. Over the years STERNBERG has successfully completed hundreds of these special custom projects, adding to the ambiance of our customers' streetscapes.

If you want to see how a fixture will look in your current or upcoming project STERNBERG has a computer program that will allow you to upload your own digital photo(s), and plug in the fixture of your choice. With hundreds of options, sizes and colors you can see if a certain type will fit in to your project before you order. A great tool for you designers.

## *Gotham Lighting Adds a Slice of Color to Their Ice*

GOTHAM LIGHTING proudly introduces a new concept to their ICE™. With a new patented design GOTHAM introduces color to their innovative and unique approach to decorative lighting. Each acrylic baffle is jacketed by diffuse aluminum surfaces, intensifying the color effect at the aperture while shielding visibility to the lamp.

GOTHAM 6" and 8" aperture luminaries are now available with ICE™ blades flush (for a subtle touch) or ICE™ blades round (for a bit more emphasis) in **red, white, blue and amber colors**. GOTHAM's new ICE™ Color trims are designed to be used with standard compact fluorescent housings and range from single or double lamp configurations, with 18-57 watt triple tube lamps, depending upon the aperture. *They are also suitable for Gotham's Elevations™ pendants!*

KLI is known as the premiere lighting manufacturer's representative in Hawaii since 1976. In general, we promote our lighting manufacturers through Architects, Engineers and Designers and distribute through wholesale electrical houses.

KLI was originally incorporated in 1976 under the name KLOPFENSTEIN'S and operated out of a house in Hawaii Kai. In December of 1987 we moved our operations into our present location on Nuuanu Ave in Downtown Honolulu. In 1997 we reincorporated as KLOPFENSTEIN'S LIGHTING INC (KLI).

Our primary purpose is to provide the best product for your application with efficient service for all your needs.
