

BRIGHT IDEAS

Spotlight: Solar Outdoor Lighting

SOL INC. (Solar Outdoor Lighting, Inc.) is the world's leading provider of industrial and commercial grade solar powered lighting systems. SOL INC. solar electric lights, solar water pumping systems, or solar home systems are installed in over 50 countries around the world on 6 continents.

In one year alone, SOL INC. installed more commercial grade solar outdoor lights than all of its competitors combined since the day they started in business. All of the world's largest solar outdoor lighting installations are by SOL INC.

SOL's solar lighting systems have the longest guarantees, the most reliable service and the best prices in the industry. SOL INC. customers have enjoyed millions of hours of trouble-free service.

SOL INC. solar lights, solar water pumps, and solar home systems have the longest guarantees, the most reliable service, and the best prices in the industry.

We have an international website for solar lighting, solar water pumping, solar water treatment and other solar powered projects outside of the continental United States. This website addresses the special needs of projects outside of the USA. International Representatives and Distributor inquiries are welcome.

All of their commercial grade solar powered systems are customized by their sales engineers. Because their products are built-to-order, they generally do not sell single unit quantities unless for evaluation purposes.

SOL INC.'s products have survived hurricanes because of their patented designs by the engineering staff and the use of premium quality custom-made components. Their products satisfy U.S. Department of Energy design formulas, have been tested by government agencies, have been purchased by all U.S. Military agencies and are approved for safety. SOL INC. customers have enjoyed millions of hours of trouble-free service.

From Translite Sonoma Ultra Slimlite

With its smooth linear design, the new Ultra Slimlite conveys modern architectural elegance in a fluorescent fixture that is both compact and discreet. Its assortment of options and lightweight construction offer unmatched versatility. Ultra Slimlite can be used in any application to accommodate the creative requirements of today's designer.

Ultra Slimlite is a low profile fluorescent fixture constructed of 1.125" extruded aluminum tube available in 2, 3 and 4 foot lengths. Snap-in diffuser is available in 3 styles. Ultra Slimlite may be mounted in any orientation and its unique design allows the lamp tube to swivel 330 degrees. Stem length is constructed of a 0.50" metal rod and may be specified in five increments up to 30" inches in length.

Key Product Attributes:

- EFFICIENT: More light where you need it - less wattage
- VERSATILE: Mounts in any orientation
- ADJUSTABLE: 330 degree rotation
- LIGHTWEIGHT: Extruded aluminum body with lighter supports creates a cleaner application

If you can think it... We can do it! Is Bruck's motto. And you thought track lighting was just for lighting up pictures.

One of our most recent projects was lighting up the exterior of the Honolulu Fire Department's new headquarters. BEGA fixtures were used for the entrance and front steps, Elliptipar was used for uplighting of the exterior walls and B-K bollards for the path lighting.

Klopfenstein's Lighting Inc.

KLI is known as the premiere lighting manufacturer's representative in Hawaii since 1976. In general, we promote our lighting manufacturers through Architects, Engineers and Designers and distribute through wholesale electrical houses.

KLI was originally incorporated in 1976 under the name KLOPFENSTEIN'S and operated out of a house in Hawaii Kai. In December of 1987 we moved our operations into our present location on Nuuanu Ave in Downtown Honolulu. In 1997 we reincorporated as KLOPFENSTEIN'S LIGHTING INC (KLI).

Our primary purpose is to provide the best product for your application with efficient service for all your needs.

SHORT CIRCUIT

Another Great Feature from Ledalite—Response™ Daylight

Lighting designs that harness daylight to meet code requirements, reduce energy consumption and reduce expenses are staking their place in the market. Response Daylight responds to these growing demands with an incredibly affordable and seriously simple daylight controls solution. Integrated across Ledalite's product line of suspended and recessed products, it provides specifiers with an easy and effective way of applying, specifying and commissioning daylight controls.

Centris® Slot Perf from Ledalite

With an industry-leading price point, fast delivery, high-quality construction and a wide-range of lamping and housing options, Centris has become one of Ledalite's most versatile and popular product lines. Now specifiers have yet another design option with a new slotted perforation aesthetic. This fresh new look is available in semi-indirect and direct/indirect distributions.

Lithonia's New TZ5 for the Armstrong TECHZONE™ System

Lithonia's TZ5 is compatible and specifically designed for the Armstrong® TECHZONE™ Ceiling System where a high-end appearance for large, open areas is desired without the expense of a custom or dry-wall ceiling. The TZ5 and TECHZONE Ceiling System take you from cluttered to organized by helping achieve a clean, monolithic look.

F.Y.I.

1. KLI will be closed for the following:
 - 10 November—Veteran's Day
 - 23-24 November—Thanksgiving

2. For those of you that utilize the KLI website we thank you and provide you with this helpful tip: If you like the application photos that are throughout the website and would like to know what manufacturer created those fixtures just click on the photo. A new page will come up which will take you to the manufacturer's website.
