

BRIGHT IDEAS

August 2009

WIN-A-BEGA

It's Back!!!

A chance for one company/firm to win one BEGA or LIMBURG GLASS fixture of their choice.

Contest runs from August 15 to November 16 2009

To qualify:

- 1. Provide a Project Name (only project(s) in Hawaii qualify for this contest)***
- 2. Provide the Luminaire Schedule with the specification of the fixture(s) & quantity***
- 3. An e-mail with the above information must be sent to Dolan Waikiki. One e-mail per project. E-mails ONLY***
- 4. No limit. Enter as many specs as you want. The more specs that are registered the better.***

Contest will end at 4:30 p.m. on Monday 16 November 2009. The winning company/firm will be notified on Monday 30 November 2009. Some restrictions apply. Contact us for more details.

Good Luck!

Any Controls Need: One Lighting Control Solution Provider

You may know [Acuity Brands Lighting](#) as the organization comprising leading lighting fixture brands such as [Lithonia Lighting](#), [Peerless Lighting](#) and [Hydrel](#), and control brands such as [Lighting Control & Design](#), [Synergy](#) and [Sensor Switch](#).

Now Acuity Brands has launched [Acuity Brands Controls](#) to offer a single source of control solutions. There's no need to contact multiple vendors that specialize in automatic shutoff, dimming or daylighting control. Whether your need is [energy code compliance](#), aggressive energy savings, flexibility, single room or whole building control, LEED points or others, Acuity offers a solution from a single source with a brand you can trust:

LIGHTING CONTROL & DESIGN

Scalable switching and dimming systems for buildingwide solu-

DARK TO LIGHT

High-quality, cost effective photocontrols for utilities and municipali-

SENSOR SWITCH

Passive infrared and dual-technology occupancy sensors.

ROAM

Wireless network enabling remote monitoring, diagnostics and con-

SYNERGY

Sophisticated switching and dimming solution.

NLIGHT

System Of intelligent control devices connected via a digital com-

SIMPLY5

Intelligent, self-commissioning, room-level dimming controls.

What this means for you: Access to complete control solutions. A single contact for sales and technical support. And a future of innovation as best-of-class control technologies from each ABC brand are combined to create new solutions that are even more flexible, energy-saving, easy-to-use and cost-effective.

Learn more at Acuity Brands Controls' [new website](#), where you can download our new [capabilities brochure](#). Also be sure to [pre-register](#) here for the Acuity Brands Controls catalog overview.

Essential Series Products Launched and Loaded!

The Decorative and Residential Product Value Stream has updated the Essential Series product line. Energy-efficient Globe, Mushroom and Décor Round fixtures are offered in White, Bronze and Polished Brushed Nickel finishes, and they look great compared to their incandescent counterparts. They provide even illumination with a 2700K 55 watt 2C type lamp in the Décor Rounds and a 2700K GU-24 spiral integrated lamp/ballast in the Globes and Mushrooms.

These fixtures are Energy Star® certified and Title 24 compliant. They include a 10,000 hour average lamp for long life which saves maintenance time and the cost of replacing lamps.

GM Lighting

The 2LIGHT and 2LIGHT Mini downlight systems provide pleasant illumination in an aesthetically pleasing design: 2LIGHT's performance success lies in the revolutionary concept of "reflector splitting," which splits light within the luminaire, producing a unique mixture of diffuse light and direct reflector light. Visible only from certain angles, the brilliant "corona" adds an elusive design element. In addition to its innovative technology, 2LIGHT's exceptional flexibility also sets it apart from other downlights, making 2LIGHT the ideal solution for modern applications with minimalist design concepts.

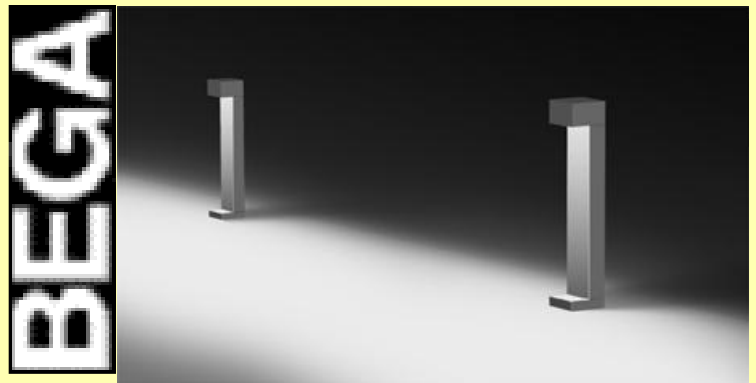

And now, 2LIGHT Mini is available with LED!

The new 1000 Lumen 2LIGHT LED downlight emphasizes the distinctive effect of diffuse accent lighting, providing three times the amount of light that an incandescent lamp source produces.

For more information, including spec sheets and photometry, click [here](#).

COMBINING A SUPERIOR GREEN DESIGN AND ENERGY SAVINGS, EVER-BRITE SIGNS OFFER THE ONLY ZERO ENERGY, ZERO RADIOACTIVITY AND ZERO MAINTENANCE SOLUTION ON THE MARKET. EVER-BRITE SIGNS UTILIZE STATE OF THE ART PHOTOLUMINESCENT TECHNOLOGY TO ABSORB AND STORE AMBIENT LIGHT. DURING AN EMERGENCY BLACKOUT OR SMOKY CONDITIONS, THIS STORED ENERGY IS IMMEDIATELY VISIBLE, CREATING A CLEAR, RECOGNIZABLE PHOTOLUMINESCENT PATH OF EGRESS INDICATOR.

In February BEGA introduced their latest family of Cutoff Bollards. The response has been highly favorable and with this bulletin comes more good news...

BEGA is pleased to now offer LED sources in this family of bollards!

In the BEGA tradition, they have designed an integrated LED system that features the highest standards of quality and performance.

The impressive features:

- (12) 1W High Output White CREE XRE LED's.
- The highly evolved reflector system is specifically designed and optimized to produce lateral, uniform distribution. Each LED is precisely oriented in a cast aluminum reflector with a mirror like finish.
- All testing was performed in accordance with IES LM-79-08.
- Full Cutoff performance complies with LEED Zone 1 requirements.

Been Assembling Lighting Contactors for Years? Why Not Buy Them That Way!

The Blue Box is the only panel you'll ever need for small to medium projects. It's quicker to install and more flexible than traditional lighting contactor panels with a smaller foot print.

Been Assembling Lighting Contactors for Years? Announcing the 21st Century!

The Blue Box is the only panel you'll ever need for small to medium projects. It's quicker to install and more flexible than traditional lighting contactor panels with a smaller foot print.

- 3 year Warranty
- Link multiple devices with Cat. 5 cable
- 30 amp (18K SCCR) Relay
- Free lifetime remote programming
- 2-16 relays per panel
- 32 channel clock

Shipped Fast and Direct to Your Site!

LC&D is pleased to announce the new 2-Day ship program. program. Order the [Blue Box LT](#) before noon (PST) and we will have it at your site two days later. Anywhere in the country. Free shipping. Right now. Click [here](#) for *Rapidship*™ details (Certain conditions apply).

Simplify Your Lighting Controls!

The [Blue Box LT](#) solves energy-code compliance and does it with the push of a button for your client. It's easier to install than lighting contactor panels with a time clock. All you need to do is land your wires and turn it on. That's it! At your site in two days, pre-assembled, pre-programmed, and ready to go!

Spend Less, Save Money!

Our [nationwide pricing survey of Electrical Contractors](#) even surprised us with the cost savings when compared to lighting contactors.

Eliminate Customer Call-Backs!

It's easy to specify. Just click this [Live Chat](#), and we can assist you with the best design, followed by a quote 30 minutes later. It's that easy. Engineers throughout the country specify the [Blue Box LT](#) and now you can too.

Don't want any help designing your lighting controls? Then download the [Blue Box Design Brochure](#). Orders placed before noon PST, will be at your site two days later.

The [Blue Box LT](#) is simply the best solution for energy code compliance.

Kudos

K.L.I. would like to extend our congratulations to the following 'Movers & Shakers' within our community:

1. ARCHITECTS HAWAII: Fourteen staff members have become Leadership in Energy and Environmental Design (LEED) accredited professionals: **Emile Alano, Matt Bickel, Bill Brizee, Charlie Chan, James Hoapili, Jean-Louis Loveridge, Jeffrey Lee, Bettina Mehnert, David Miller, Lester Ng, Teri Patton, Ernest Shimizu, Brian Takahashi and Don Valenzona.**
2. AMERICAN INSTITUTE OF ARCHITECTS, HONOLULU CHAPTER: The following projects and architects received the 51st annual design awards Award of Excellence:
 - Honolulu Zoo Learning Center, **John J. Ida** of Urban Works Inc and Kamuela-area residence, **Gregory Warner** of Walker Warner Architects.
3. AMERICAN INSTITUTE OF ARCHITECTS, HONOLULU CHAPTER: The following received awards of merit:
 - Sacred Hearts Academy Performing Arts Building, **Lorrin Matsunaga** of Urban Works Inc.
 - Kaupulehu Beach Club Phase 1, **Mark de Reus** of De Reus Architects; Kilauea-area residence, **Anthony De Jesus** of De Jesus Architecture & Design; and Na Manu Eha residence, **Peter N. Vincent** of Peter Vincent Architects.
4. AMERICAN INSTITUTE OF ARCHITECTS, HONOLULU CHAPTER: The following received the Unbuilt Award, for projects currently unfinished or purely theoretical:
 - Punahou School K-1 Neighborhood Project, **Lorrin Matsunaga** of Urban Works Inc.
